

Le richieste di personale selezionate da EURES Regione Umbria

EURES (EUROpean Employment Services - Servizi Europei per l'Impiego) è una rete di cooperazione tra i servizi per l'impiego dei paesi dello Spazio Economico Europeo (paesi dell'Unione Europea più Norvegia, Islanda e Lichtenstein), la Svizzera e altre organizzazioni partner.

La rete è coordinata dalla Commissione Europea e, a livello nazionale, dal Ministero del Lavoro/ANPAL.

EURES offre servizi di informazione, orientamento, incontro domanda-offerta di lavoro e si rivolge alle imprese e alle persone alla ricerca di un lavoro.

I cittadini interessati a lavorare nei 32 paesi aderenti possono accedere al **Portale Europeo della Mobilità Professionale** <https://ec.europa.eu/eures/public/it/homepage> per avere informazioni sulle condizioni di vita e lavoro e conoscere tutte richieste di personale disponibili o contattare lo staff EURES: <http://www.regione.umbria.it/lavoro-e-formazione/i-servizi-eures>

La conoscenza di altre lingue è fondamentale per cercare lavoro in un altro paese, per questa ragione la maggior parte delle offerte sono pubblicate nella lingua richiesta.

**Da pag. 1 a pag. 14 una selezione di nuove offerte,
da pag. 15 a pag. 17 offerte già segnalate, ma ancora valide**

Per vedere tutte le offerte EURES disponibili:

<https://ec.europa.eu/eures/eures-searchengine/page/main?lang=it#/simpleSearch>

Riferimento EURES Germania 202-NRW-IT

Mansione **Junior Software Developer flight simulation/Software Developer Flight Simulation /
Software Engineer Flight Simulation/Senior Software Engineer Flight Simulation**

The employer is a German subsidiary of the world's leading supplier of simulation and training systems for pilots and flight crews.
With utmost precision, they design, produce and maintain state-of-the-art training systems for flight and land simulation as well as networked simulation applications.
You would work in an international team of about 400 employees in Stolberg near Aachen, located in the border triangle of Germany, Belgium and the Netherlands.

Junior Software Developer flight simulation/ Software Developer Flight Simulation (m/f):

Your tasks:

- Preparation of requirement specifications
 - Preparation of detailed software design
 - Encoding of software
 - Performance of module and integrated testing
 - Support of customer acceptance tests
- Your profile:
- Bachelor (or Master) Degree in Aerospace Engineering, Mathematics, Telecommunications, Computer Science or Software Engineering
 - First experience/ two or three years of experience across all relevant areas
 - Experience in software development, especially in the programming languages C/C++ and C# as well as different operating systems
 - Fluent knowledge of English
 - Basic knowledge of German would be an asset
 - Independent, structured and analytical way of working

- Team player

Software Engineer Flight Simulation/ Senior Software Engineer Flight Simulation (m/f):

Your tasks:

- System analysis
- Preparation of requirement specifications
- Preparation of detailed software design
- Coding of software
- Generation of status reports
- Performance of module and integrated testing
- Creation of Acceptance Specifications
- Support of customer acceptance tests
- Preparation of SW-Documentation

Senior position (additionally):

- Development of simulation concepts
- Generation of proposal calculation and specifications

Your profile:

- Bachelor or Master Degree in Aerospace or Electrical Engineering, Telecommunications, Computer Science or Software Engineering
- 4 to 5 years/6 to 8 years of professional experience across all relevant areas
- Experience in software development, especially in the programming languages C/C++ on different operating systems
- Independent, structured and analytical way of working
- Fluent knowledge of English
- Basic knowledge of German would be an asset

Senior position:

- Team player with capability to lead the team

The employer offers to new employees, coming from abroad, German language courses,

re-location support and budget to ease the move to Germany.

Please send us your CV in German or English via email to

ZAV-IPS-Nordrhein-Westfalen@arbeitsagentur.de and cc eures@afolmet.it Please use "202-NRW-IT" as subject.

Principal Android Developer London, W2 £Excellent Salary Plus Pension, Healthcare On a mission to connect, inform and empower people across the globe, our client is building the world's most sophisticated cloud storage platform. They're now looking for a Principal Android Developer to help drive their goals and achieve excellent results. Based in state-of-the-art offices in Central London, you will find that our client is located in an iconic building within easy reach of the Bakerloo line and surrounded by creative organisations and global corporations. Within the offices themselves, you'll discover a games

room and a fully stocked chocolate fridge so as soon as you feel that concentration drop you can step away, stock up on sugar and ping pong wins and display your pool supremacy to all who will take you on. As the Principal Android Developer, you'll join a fast-moving development environment where your primary function will be to build and maintain two of our client's major software offerings as they are developed on the Android platform. You'll join the Mobile and Desktop Team which is Agile from top to bottom (like the rest of the company) and will take part in planning sessions, standups and retros. You'll collaborate and pair with other team members and will learn new skills as well as imparting yours through mentoring. Big data is part of everyday life for our client, it's not just a concept and the solutions created are for a dynamic and fast-paced market. Every month new features are added to our client's platform which brings large numbers of new customers and resellers to their self-hosted multi-petabyte storage cloud. This makes for a fluid environment which requires people who are focused on getting results and solving problems and don't get bogged down in the petty and mundane. What Else Will Your Role Involve? - Delivering high quality products and clean code - Following best practice - Ensuring your code is bug-free through automated testing and high code coverage - Working hand-in-hand with QA to define new features before final release - Sharing knowledge with members of your team - Collaborating with other teams to support new product development and product improvements - Enhancing the user experience through collaboration with the UX team Interested? If so, you will need: - At least seven years' experience in a technical role - At a minimum, three years' experience with native Android development - At least three years' experience consuming RESTful web services - Code profiling, diagnostics, troubleshooting and performance optimisation experience - Experience of working in Agile development environments - Knowledge of Chromecast, video codecs, or other related technologies - A degree in Computer Science (or similar qualifications and experience) Detail-oriented with a focus on quality and accuracy, the ideal Principal Android Developer may also have experience of writing and designing RE

Do you want to be part of building the #1 mobile payment app in the Nordics and be part of the team that changes how payments are done? Then join MobilePay. We are looking for an eager and brilliant Android developer to join our MobilePay development team in Brabrand, Denmark (Aarhus area). We are currently strengthening the App Development capabilities in MobilePay to support MobilePay becoming a separate company by establishing an app development team in Denmark to compliment the main app development team in Vilnius, Lithuania. For this we need you as the experienced Android developer that is passionate and dedicated to delivering world class customer experiences and digital solutions. You will be working in a new team together with an android developer and our user experience specialists. **Responsibilities**• Write gorgeous and optimized code for Android applications. • Self-directed work style with minimum of supervision. • Make specification and Documentation of System Design. • Work in Agile Teams with own responsibility for delivering what is agreed in right time. • Take ownership of tailoring future Android development in MobilePay. You'll be part of a twin site development department with colleagues in Lithuania and we are working closely with the business situated in the center of Copenhagen. A minor level of traveling must therefore be expected. **Personal skills** You work efficiently as a self-managing team player and your work products are thought through. Paying attention to details comes naturally and you do this without compromising progress. Performance orientation is part of your DNA and you are motivated by persistently striving to deliver results. You need to be fluent in English (orally as well as in writing). Danish is not a requirement. **Knowledge and experience required**• Have 5+ years of experience in Android App Development. • Have developed a broad range of complex solutions. • Not get scared of RxJava, Java 8 in Android. • Butterknife • MVVM and Data Binding • Retrofit •

Advanced Gradle• GitFlow**We offer:**• An inspiring environment in a large IT organization.• A perfect opportunity to join a growing IT team and face the challenges and the opportunities to influence and shape the Mobile Pay app.• Work in an international team, which concentrates on innovative customer facing solutions.• An extensive training program to ensure that your skills are maintained and updated on an ongoing basis.• Highly skilled team and career opportunities.• Cross business career opportunities in bank.**Interested? Send application and CV on our webpage no later than 11.10.2017.***Danske Bank is a strong Nordic universal bank with an international network. Our vision is to be recognised as the most trusted financial partner. Danske Bank is headquartered in Copenhagen, Denmark and has 18,000 employees across 16 countries.*

Do you want to be part of building the #1 mobile payment app in the Nordics and be part of the team that changes how payments are done? Then join MobilePay. We are looking for eager and brilliant .NET developers to join our MobilePay development teams in Brabrand, Denmark (Aarhus area). We are currently rebuilding MobilePay to meet the emerging digital challenges and to position MobilePay as the leading mobile payments platform in the Nordics. The new backend platform is based on .NET micro services using Domain Driven Design, with CQRS and NoSQL persistence technology, on an AMQP based message broker (publish/subscribe) and with REST/JSON APIs. For this journey we need you as the .NET developer that in a feature team develops backend features for the MobilePay app. All our solutions revolve around customer centricity and are developed with passion and commitment. We expect you to have a strong interest in technology and have a continuous focus on the technology landscape to transform use cases to features. You'll be working in a feature team along highly professional and technically skilled colleagues all focused on developing and refining our MobilePay solutions, in a social and open environment, where everybody strives to create results and the best possible product and at the same time have fun. As a junior developer you will be taken well care of, while you use your curiosity to evolve MobilePay and your own skill set. You'll be part of a twin site development department with colleagues in Lithuania and we are working closely with the business situated in the center of Copenhagen. A minor level of traveling must therefore be expected. **Personal skills** You work efficiently as a self-managing team player and your work products are thought through. Paying attention to details comes naturally and you do this without compromising progress. Performance orientation is part of your DNA and you are motivated by persistently striving to deliver results. **Knowledge and experience required** You might be fresh out of your education or have a few years of experience with .NET development (C#) on the MS Platform. A master's degree in computer sciences will be considered a plus. If you have experience with optimizing the development process with the use of tools, preferable both development tools like GIT, VS, NuGet, Go etc. and application tools like RabbitMQ, Cassandra, the ELK stack etc. it is a plus. It will be great if you have knowledge of DDD, CQRS, Micro Services and AMQP, and you have experience with Source Code management, Continuous Integration and Deployment pipeline. You need to be fluent in English (orally as well as in writing). Danish is not a requirement. **Interested?**

Our innovators move fast and draw strength from their natural curiosity as well as their specialist knowledge. You love to put your intellectual skills to the test every day and you feel like exploring the frontier of your field and inventing new standards. Can you build and translate microbiology concepts into business opportunities? Then join the Microbiology Team at the Arla Innovation Centre. We focus our efforts on delivering unique microbial solutions that fit with consumer needs and impact Arla Foods' global innovation agenda. You will be mainly based at our newly built Innovation Centre in Aarhus, where you can anticipate to perform some laboratory work (although some travel may be required) Key partner to various innovation Projects: You will be a key partner to various innovation projects related to bio-protection and fermentation of Arla Foods products using appropriate cultures. Specifically, you will achieve success by creating scientific concepts and transforming them into business opportunities that bring value to Arla Foods across all categories. To ensure that Arla's business needs are met, you will proactively enable a two-way transfer of knowledge between the organisation and relevant internal and external partners (academia/suppliers). Experienced food microbiologist with profound expertise in project management You hold an MSc in Microbiology, or alternatively in Dairy Science & Technology coupled with industry exposure. Your microbiology background covers 2-4 years' experience on product food innovation in the food industry. You have solid knowledge of dairy products and related microbiological processes (bio-protection, fermentation) and this is combined with strong project management experience. You have a track record of making science adopted by other functions of the business. Moreover, you thrive in an independent role where you use your curiosity and creativity to seek new information to keep developing your area. You also have a structured and analytical approach to your work enabling you to create sustainable results. On top of that, you are a good communicator which is necessary for effective stakeholder engagement, in particular in the Academia/Industry interface, but also within Arla Foods markets/business units. Lastly, you are proficient in English.

GUIDE - 3 impieghi

Norvegia, Troms.

ID offerta di lavoro: 19331707000007 Malangen Resort is a resort in Balsfjord, Northern Norway, providing high quality accommodation, dining and activities for the corporate and leisure markets. This modern, purpose-built resort has an idyllic waterfront location on the picturesque Malangen Peninsula, just an hour's drive from Tromsø, the largest city in Northern Norway. During the winter season, we aim to be the leading Northern Lights resort in the Tromsø region, providing complete solutions involving transportation, accommodation, dining and Northern Lights adventures. Dette er den perfekte sted for forretninger eller fornøjetelser, der tilbyder en unik kombinasjon av fjord og fjell og alt som trengs for et minneverdig opphold innen gangavstand. Accommodation is available in a choice of hotel room, apartment, sea-view cabin, Deluxe sea-view cabin or deluxe waterfront cabin - all offering a high standard of quality and comfort and spectacular views. Our restaurant specializes in North Norwegian cuisine made from fresh, locally sourced ingredients. Malangen Resort has a total of 86 accommodation units and can accommodate up to 360 guests. We offer a position in one of the leading activity resorts in the Northern Norway area with good career prospects, both nationally and internationally. Verdere ontwikkeling van onze medewerkers is ook belangrijk voor ons. Malangen Resort will give you a great opportunity to advance your career and serve as a great place to test and learn new skills. Malangen Resort has a total of 86 accommodation units and can accommodate up to 360 guests.
