

Aggiornamento: **27.11.2017**

**Regione Umbria**

## **Le richieste di personale selezionate da EURES Regione Umbria**

EURES (EUROpean Employment Services - Servizi Europei per l'Impiego) è una rete di cooperazione tra i servizi per l'impiego dei paesi dello Spazio Economico Europeo (paesi dell'Unione Europea più Norvegia, Islanda e Lichtenstein), la Svizzera e altre organizzazioni partner.

La rete è coordinata dalla Commissione Europea e, a livello nazionale, dal Ministero del Lavoro/ANPAL.

EURES offre servizi di informazione, orientamento, incontro domanda-offerta di lavoro e si rivolge alle imprese e alle persone alla ricerca di un lavoro.

I cittadini interessati a lavorare nei 32 paesi aderenti possono accedere al **Portale Europeo della Mobilità Professionale** <https://ec.europa.eu/eures/public/it/homepage> per avere informazioni sulle condizioni di vita e lavoro e conoscere tutte richieste di personale disponibili o contattare lo staff EURES: <http://www.regione.umbria.it/lavoro-e-formazione/i-servizi-eures>

La conoscenza di altre lingue è fondamentale per cercare lavoro in un altro paese, per questa ragione la maggior parte delle offerte sono pubblicate nella lingua richiesta.

### **Da pag. 1 a pag. 15 una selezione di nuove offerte, da pag. 16 a pag. 21 offerte già segnalate, ma ancora valide**

Per vedere tutte le offerte EURES disponibili:

<https://ec.europa.eu/eures/eures-searchengine/page/main?lang=it#/simpleSearch>

### **CHEF - Bicester - 1 impiego**

*Regno Unito, Oxfordshire.*

Informazioni sull'impiego

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 44896152

Restaurant: Bicester Brand: Pizza Express Salary: £8.10 per hour Hours Of Work: 30 hours + per week  
Why join our team? Would you like to work with great food in a fast paced and busy job? Well, with PizzaExpress, you'll get full training all about our food and how to work within a kitchen, that's right, you don't need any experience and the training is fully paid. You'll be able to learn new skills, work with a great team - or family as we see it - and the opportunity to gain qualifications and quickly progress your career if this interests you. Of course, there is lots of free pizza for you too! What you'll do: We call our kitchen team "Pizzaiolos" - this name reflects our authentic Italian pizza and our passion for top quality ingredients. Our open kitchens are the heart of our restaurant family. And far from being hidden away you will be a core ingredient in delivering a great experience with passion and flair. It goes without saying that you will need a big appetite for creating truly authentic pizzas from scratch, to order, so we look to our kitchen team to take pride in every single dish. Benefits for you: Let's start with free pizza, but it's not just that. What you might not know is we also offer flexible working hours, paid holidays, sick pay, uniform and qualification and apprenticeship opportunities. Not to mention great parties, opportunities to relocate and a real chance to develop your career in any way that appeals to you. Our story: We have been around for over 50 years, have 600 restaurants worldwide and we are still growing. Each of our restaurants has its own personality, and that's down to our fantastic people - the only thing we care more about than our pizza. Apply now. Pizza awaits.

### **ASSOCIATE MANAGER FOR CORPORATE BRAND COMMUNICATION - 1 impiego**

*Danimarca, Syddanmark.*

Informazioni sull'impiego

Livello di istruzione richiesto: Non specificato

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 4694641

Are you looking for new challenges, fun and variety? Then take this fantastic opportunity to build a career in communications in a role where you use your organisational skills to support the Corporate Brand Communication team. Help develop the LEGO® brand. As an associate manager with Corporate Brand Communication, you join a team that is responsible for creating and implementing communications programmes designed to protect and enhance the reputation of the LEGO Group. You will contribute to a wide range of internal and external corporate communication initiatives, including press office activity and media events. More specifically, you:

- Coordinate events
- Conduct media monitoring
- Develop content such as media releases, blog posts and intranet stories
- Manage projects e.g. related to internal communication programmes, media relations and communication materials

Connected community. In this position, you will get to collaborate with excellent colleagues - both within the team and across functions. All of us will help you to make the most of your skills, and in turn we hope that you can bring about new thinking, especially within digital communications. Here, you will get to demonstrate your knowledge within key areas of communication, media relations and digital engagement as you go about trying new things and making an impact on how we perform. Impeccable English and outstanding organisational skills. To support the team, you will need great organisational skills and a flexible approach to working. Ideally, you also have some experience with developing graphic material for internal and external use as well as creating content for social media channels and internal communication. Your qualifications:

- You have a few years of relevant experience from an agency or inhouse, including internships
- You hold a degree related to communications
- You are an expert in making PowerPoint presentations
- Any knowledge of Adobe is a plus
- You are highly proficient in spoken and written English

Bringing it to life. "The LEGO brand is a global phenomenon, loved by generations around the world. This affection is the result of the strong values that come with family ownership, a powerful, authentic purpose, and an innovative product that inspires creativity. For a communications professional, this role provides a chance to tell stories that delight and inspire, while protecting the reputation of one of the most powerful brands in the world," says Anna Burr, Vice President, Corporate Communications. Join the global LEGO family. In the LEGO Group, we succeed together, and you will be part of a global family, where you can use your creativity and enjoy a fun working environment. We look forward to receiving your application. Please remember to attach your cover letter and a current CV in English. We do not have application deadlines on any of our positions. We take candidates into the recruitment process continuously and fill the position once we have found the right candidate.

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

Qualifiche professionali richieste:

ID offerta di lavoro: 00000730689

This position will be responsible for process engineering work packages during the design, construction and startup of a new green-field, large scale manufacturing facility. Responsibilities will include supporting the design development, procurement, factory acceptance testing, installation, commissioning and qualification of new process systems and equipment utilized in the production of biopharmaceutical drug substance. The initial focus of this position will be to drive the commissioning and validation effort by developing plans, writing test protocols and hands on field execution of commissioning and validation within specific process areas (cell culture, purification, process support), including assistance training new manufacturing associates who will also support the commissioning and qualification activities. Later on, the process engineer will be responsible for future engineering optimization projects. Primary Responsibilities • Develop test plans and protocols for FAT, SAT, commissioning and validation. • Lead commissioning within assigned areas, including equipment inspections, factory acceptance testing (FAT), site acceptance testing (SAT), field verification walk-downs and commissioning test execution. • Provide equipment and system mechanical completion walk-downs, safety walk-downs, system energization plans, lock-out tag-out, and review and approval of equipment installation manuals (EIM). • Prepare regular status updates for reporting progress, issues, safety, quality etc. to project management. • Provide process engineering input during design development, construction, testing, commissioning and validation, and help manage changes through the project. • Review and approve process engineering specifications, including process piping & instrumentation diagrams (P&IDs), datasheets, and

Pagina 13 di 21

procurement packages for new equipment and systems. • Review and approve equipment vendor submittals, including system piping layouts, general arrangements and other equipment specifications and drawings. • Lead the turnover of systems for subsequent validation activities and provide technical support throughout validation activities. • Understand and implement internal policies, procedures and specifications as required for the execution of process engineering for the project. • Interface with stakeholders to ensure the design, execution and delivery are in accordance with Global Engineering, Quality, Environmental and Safety procedures. Qualifications/Skills • Bachelor's Degree in relevant field such as Chemical Engineering, Bio-engineering, Bioprocessing Advanced degree strongly preferred First experience in the biotechnology/pharmaceutical production • English required, and fluency in German or French or Italian preferred. • Must have minimum of 3 years related experience in engineering, construction, commissioning and validation in a GMP / pharmaceutical / biotech manufacturing environment, or an equivalent combination of education and experience • Must have demonstrated capability to provide engineering technical support for GMP facilities including cell culture, purification and biopharmaceutical processing equipment and clean utilities • Must be able to travel up to 20% • Priority placed on good communication and relationship skills Overview We are building a new, Next-Generation Biologics Manufacturing Facility in Luterbach (Canton Solothurn) in Switzerland. The facility will utilize new technologies pioneered by our experts in technical development and employ an innovative, world-class engineering design to deliver substantially increased productivity. It will initially house two manufacturing cells each containing four 18'000 liters bioreactors. Please apply online: <http://biogen-solothurn.ch/karriere/> Please note that only online-applications will be accepted. Biogen will not retain paper application submitted. ## **AMBITIOUS SOFTWARE DEVELOPER WHO WANTS TO MAKE A DIFFERENCE - 1 impiego**

*Danimarca, Midtjylland.*

Informazioni sull'impiego

Livello di istruzione richiesto: Non specificato

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 4645836 Systematic is the largest privately owned IT-software company in Denmark – and we are growing. Read along if you like to be in front and make your mark on IT-solutions that make a difference to people and society, which is our company mission. We work in five different areas: - Healthcare (hospital IT-systems) - Intelligence and National Security (different security IT-systems) - Defense (battle management and communication IT-systems) - Public and Private (various mission critical IT-systems for the public and private sector) - Library and Learning (school and library IT-systems) As a developer, you will be an important part of the daily work of developing high-quality IT solutions for customers worldwide. You will be part of an agile and independent team with skilled colleagues where you will be responsible for a wide range of development-related tasks. The job: Do you want to work in an international company with highly profiled customers and very professional colleagues? Would you like to learn about European and especially Danish work culture in a friendly environment where we care about YOU and your competence development? Then you should continue reading. You should apply for this job if you: - Want to produce high-quality code that is easy to maintain and understand for others - Like to work in an Agile working environment with a large degree of independence to plan your own work - Like complex tasks in a large code base that covers a wide variety of different technologies - Want to be part of a highly skilled team of developers where you get to learn something new every day - Are driven by the quality of your work and take pride in understanding complicated solutions and the challenges that the customer faces Your skills and personality: You are probably a computer scientist or an engineer, preferably experienced with software development. Which technologies you will be working on depends on the team and business unit you will be part of. Because of this, you have the opportunity to work with a wide range of technological solutions and methods. Furthermore, you are skilled in some of the following technologies: - Java EE and/or .NET (C#), Groovy, Scala – particularly experience with Java will be an advantage - HTML, CSS, JavaScript (AngularJS, JQuery) - SOAP, REST, HTTP, SSL/TLS, TCP/IP - XML, XSD, XSLT - jPA, SQL (MSSQL, MySQL, Oracle, Postgres) - Object-oriented design and design patterns - Test-driven development, profiling, optimisation - Continuous integration and deployment, scripting - Windows and/or Linux operational system As a person, you are good at collaborating, and you contribute positively to the team dynamics. You are ambitious and are willing to continuously improve and develop yourself towards becoming and independent team player. You work systematically and always focus on the detail. Systematic offers: 'Talent Program' and a strong professional environment: As a part of the talent program, we offer you an internal mentor who will assist you in your personal learning process. At Systematic, you will experience a trustful atmosphere where you will feel safe to experiment and use your full intellectual capacity, which is a core value to us. Thereby, you will improve your career opportunities. We prioritise a good work-life balance. Furthermore, you will be working in teams within a Scandinavian environment of ambitious and highly skilled colleagues who speaks excellent English. Support to settle in (if you need to relocate to Denmark): We offer preliminary home search, help you getting your registration in order and we offer a high quality Danish language course. If you want to you get a host family, which is an employee in Systematic and his/her family inviting you for dinner etc. In addition to this, you will get a tutor in Systematic who will help you to settle in the organisation. The City of Aarhus: Aarhus is the second largest city in Denmark with 350.000 inhabitants. Recently, CNN rated - How to apply:

Join us as an Intern in Novo Nordisk and get an opportunity to work alongside experienced colleagues from many different nationalities within various fields. The working hours are flexible from minimum 18 to maximum 37 hours a week enabling you to combine an internship with lectures at university, project work or writing your Bachelor/Master's thesis. It is an opportunity for a unique learning experience and a chance to turn theories into practice. **About the department** As an Intern in our organisation, you get the opportunity to work in an international, high performing team with a variety of backgrounds

(communication, project management, science and international business). We use our differences to create novel ideas and high-quality solutions. Global Medical Affairs is key to ensure the safe and appropriate patient use of our drug through the generation, interpretation and communication of scientific data. Supporting this goal, we engage with Health Care Professionals and Key Opinion Leaders, and secure communication of our scientific data through global publications, and develop strategies and supporting processes for these. Moreover, we collaborate with key affiliates and stakeholders to ensure continuous improvement of the Publication function globally. **The position** You will be supporting Global Publication Managers in the Global Publication team in day-to-day business processes and tasks. You will also be involved in the development of publication excellence projects, e.g. metrics/measures, optimised communication; stakeholder needs assessment and preparing various projects for long-term regular delivery as necessary. Working closely with the team you will ensure data accuracy standards are maintained, and support and prepare training material. Attention to detail and ability to handle large datasets is essential, and must be paired with a mind for experimentation and innovation.

- Internship period: 3-6 months
- Working hours: Flexible (minimum 18 and maximum 37 hours a week)
- Start date: 1 Jan 2018
- Internships are remunerated, if your educational track allows
- A Danish full time work permit is required

**Qualifications** We are looking for an Intern who is passionate about project management and effective communication. You are currently studying your Master's degree in Business, Communication, Public Health or other related fields. You already have some experience with cross-functional project management either in a work or academic setting. You are fluent in both oral and written English and have excellent Microsoft Office skills. Moreover, you are able to manage several projects at the same time and take a methodical approach to your work and tasks, but demonstrate flexibility when priorities change. In addition, you bring a can-do attitude and a healthy sense of humour to your work even when the pressure is on. We expect you to be service minded, that you thrive in a busy environment and that you are great at focusing on solutions and opportunities. Finally, you have excellent interpersonal skills and a professional and personal impact that is reflected in your desire to take initiative and responsibility for your projects. **Working at Novo Nordisk** At Novo Nordisk, we have been changing diabetes since 1923. If you are ready to strengthen our position as an innovative pioneer and respected industry leader, we encourage you to join us to make the most of your talent. **Contact** For further information, please contact Lise Baltzer at +45 3079 8782. **Deadline** 9 November 2017. Please note that applications will be reviewed continuously and interviews will be planned as soon as a suitable candidate is identified. How to apply: Online: [Application form](#)
